Dear Members and Friends,

Summer has come and the gardener’s art is at its zenith. When the gardeners design beds, they create a community of individuals. Each plant has its own character, season, needs and strengths and each must remain distinct to achieve the harmony of the whole. Like the garden, Wave Hill is also a community of individuals.

I have always believed in the power of one person. To my mind, we don’t need to save the world to be considered heroes. All we need to do is make a difference in someone else’s life. The educator who opens a child’s mind to nature, the artist who changes our point of view, the gardener who delights our senses and the supporter who makes all of this possible—these are Wave Hill’s heroes.

There is no one who exemplifies this as well as our Director of Visitor Services, Michael Wiertz. Through his work he has gently made a difference in all of our lives. Now, after 11 years, Michael is retiring, but he will always be part of Wave Hill.

As time passes, each of you has an impact here that leaves an indelible signature. Wave Hill would not be what it is without all of you. Thank you for being our heroes.

— KAREN MEYERHOFF, President & Executive Director

**On Site Opera to Perform at Wave Hill**

This fall, Wave Hill partners with innovative opera company **On Site Opera** to bring Benjamin Britten’s haunting, psychological opera *The Turn of the Screw* to life. In a roving performance that centers on Wave Hill House, the audience moves along with the performers as the opera hurtles towards its chilling conclusion.

This unique experience will be presented at Wave Hill on October 25, 26 and 27 with a ticketed dress rehearsal on October 24. Wave Hill Members will have early access to tickets. Members presale begins July 15, for one week only, at wavehill.org/onsiteopera.

Sales to the general public start July 22.

**Front Gate Renovations Start June 1**

Wave Hill is undertaking a major capital renovation this summer. Our front entrance is getting a redesign, with a new gatehouse and separate entries for pedestrians and vehicles, benches and improved lighting. A new, more welcoming garden path through a collection of mature shrubs and perennials will bring you along the west side of the parking area rather than through the lot. Construction gets underway June 1. It’s all part of a site plan that offers a big-picture, multi-year vision for the property that has been made possible by funding from the City of New York and other private donors. The onsite parking lot will be closed temporarily for construction; ample offsite parking will be available with frequent shuttle service. Wave Hill Members will receive additional guest passes. More at wavehill.org/visit/siteplan.
