

WaveHill

Art, Community, Education & Science Internship

Wave Hill's Art, Community, Education & Science (ACES) internship is a paid internship program for high schoolers ages 16–18 to explore the connections between community engagement and science-informed, informal arts education.

ACES interns assist with Family Art Project, an intergenerational and multidisciplinary program for families to come together and make art inspired by nature at Wave Hill.

Program Details

Interns will be scheduled to work on Saturdays and Sundays from June 2023 through June 2024 between the hours of 9AM and 4PM. Interns can expect to work approximately 4 to 8 hours per weekend, with a maximum of 14 hours.

Compensation is \$15.00/hour.

Who Can Apply

Interns must be enrolled in high school, be 16 years old by July 5, 2023, and be eligible to work in the United States. Candidates should have a strong interest in arts and science education and be comfortable interacting with members of the public, including children.

What to Expect

- Learn and practice skills in program facilitation, artmaking and public speaking
- Work with children and families to discover connections between science and artmaking
- Assist with family story time, including reading books aloud and facilitating related activities
- Meet guest artists, take field trips and participate in onsite workshops focused on STEAM education and college readiness
- Develop a weekend workshop for families as your final, collaborative project, as you explore program design, art education and connections to science and community
